Reasons for Allowance

1. The following is an examiner's statement of reasons for allowance:

The claimed invention of a drive assembly for a tracked vehicle having a single track roller immediately adjacent the idler and the sprocket wheel, and double rollers interposed between the single rollers, with both the single rollers and the double rollers being mounted on arms for rocking movement, and the single rollers being elastically supported, is not found or fairly suggested, in the prior art.

Jones and Japanese patent 2-102883 (cited herein) show single rollers at each end of the track assembly near the idler and the drive sprocket, but these rollers are not supported for rocking movement. Other references show only one single roller, and it is not felt that it would have been obvious to change the configurations of these track assemblies to add a second single roller.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Russell D. Stormer whose telephone number is (571) 272-6687. The examiner can normally be reached on Monday through Friday, 9 AM to 4 PM.
